

PNEUMATIC LOCKING SWIVEL CASTER
HS072402USNP

1 **ABSTRACT**

2

3 A pneumatic locking swivel caster comprises a swivel caster and a locking device which
4 may be activated by fluid pressure. The swivel caster may be a dual wheel swivel caster. An
5 improved theatrical prop or scenery element comprises a pneumatic locking swivel caster and a
6 control system. The control system may comprise a tank filled with pressurized air and a control
7 valve. A pneumatic locking swivel caster may be locked into position by activating the control
8 valve and pressuring the caster with air. The pneumatic locking swivel caster may comprise a
9 triple swivel caster adapted such that all three sets of wheels are locked by air pressure.
